

The Honorable Richard Durbin  
United States Senate  
525 South Eighth Street  
Springfield, IL 62703

Dear Senator Durbin,

I am an Affordable Connectivity Program (ACP) customer and I am writing to inform you that I am upset that Congress has not agreed to supply additional funding in order for this program to continue any further.

Recently, we received notice that as of April 2024 the ACP program is expected to end. My household relies on this \$30 per month discount on our Internet service due to financial hardships from the pandemic. With the additional funding from Congress, my family would be able to continue working remote when needed, e-learning for school, scheduling Teledoc appointments, and so much more.

The ACP has been enormously beneficial – the over 23 million American households, including over 4.5 million senior and elderly citizens, and nearly 1 million veterans, use this subsidy for affordable internet services. This support ensures that Americans across rural, suburban, and urban areas can afford a broadband connection.

I respectfully request that you work with others in Congress to preserve the Affordable Connectivity Program. Thank you for your attention to this urgent, critical issue. I look forward to hearing from you and having the benefit of your views.

Sincerely,

---
